

Data Science & GenAI leader with **5+ years** in problem-solving building real-time AI/ML systems at scale; deployed fraud prevention models preventing **\$25M+/month in losses** on **6M+ daily trades**. Expertise across **LLMs, Agentic AI, RAG, deep learning, MLOps, and distributed systems**. Globally recognized as **Kaggle Master (Rank 63)** and speaker at **NVIDIA GTC** and **ODSC**.

TECHNICAL EXPERIENCE

Senior Data Scientist Jun 2024 — Present
Fidelity Investments Boston, MA

- Owned development of real-time, low-latency fraud detection on **6M+ daily trades**; built **transformer-based ensemble** models on **PySpark** feature pipelines with distributed training on **AWS SageMaker**, achieving **sub-100ms inference latency**.
- Drove production deployment of fraud prevention engine, engineering **2000+ risk features** for real-time scoring with model governance and threshold tuning; prevented **\$25M/month** in fraud losses while reducing manual reviews by **68%**.
- Led team to build Customer Fraud Risk **REST API (FastAPI, Docker, Kubernetes, MLflow, CI/CD)** serving real-time risk scores with **SHAP**-based explainability, bias mitigation, and **drift monitoring** (Evidently) across rule and ML engines.

Data Science - Researcher Feb 2023 — May 2024
Egan Labs - MIT Boston, MA

- Designed acoustic array for underwater mammal sound clustering, applying **unsupervised ML** (K-Means, DBSCAN, hierarchical clustering) on **200M+ samples** across 4k–500k Hz bands, achieving **silhouette coefficient of 0.983**.
- Developed real-time **Streamlit** GUI for end-to-end **EDA**, predictive modeling, leveraging **pandas, NumPy, SciPy**, and **Plotly** for large-scale signal processing pipelines with FFT-based feature extraction.
- Collaborated with MIT researchers on data acquisition expeditions, securing **\$4M in funding** for v2 build with a 6-fold subsection array; co-authored findings for peer-reviewed publication.

Data Scientist Apr 2020 — Sep 2022
Logic AI Bengaluru, India

- Improved real-time ingestion efficiency by **15%** via **Kafka Streams** migration, accelerating ITMS **time-series forecasting** throughput by **1.5x** and handling **1.2M data points/minute**.
- Reduced error rate by **0.6x** to a stable **0.91 F1 score** using hierarchical classification and **concept drift detection** on **AWS SageMaker** and **S3**, with **MLflow** for model tracking and monitoring.
- Built and orchestrated production **ETL pipelines** for advanced analytics data ingestion using **Pyspark, Dask, Kafka**, and **Airflow** for model inference, drift, and observability. Data pipeline and data strategy development for low latency systems.

SKILLS

Languages	Python, SQL, R, Java, Rust
Database & Big Data	PostgreSQL, MySQL, MongoDB, Snowflake, BigQuery, Spark, Databricks, Redis, Node
ML & Statistics	scikit-learn, XGBoost, pandas, NumPy, A/B Testing, Causal Inference, Time-Series Forecasting, Machine Learning, Decisions Tree, Demand Forecasting
Deep Learning & NLP	PyTorch, TensorFlow, Hugging Face Transformers, BERT, spaCy
Generative AI & LLMs	LangChain, LangGraph, LlamaIndex, RAG, Agentic AI, Multi-agent Orchestration, MCP, Fine-tuning (LoRA/PEFT)
MLOps & Cloud	Docker, Kubernetes, MLflow, FastAPI, Airflow, AWS (SageMaker, Bedrock), GCP (Vertex AI), CI/CD, Evi- dently (drift monitoring), Agile development, Azure, version control
Visualization & Tools	Tableau, Power BI, Streamlit, Plotly, matplotlib, Git, Kafka, Scala, Linux, Jupyter, DBT

EDUCATION

Master of Science in Data Analytics Engineering, Northeastern University GPA: 3.92/4.0	Apr 2024
Bachelor of Technology in Computer Science, Indian Institute of Information Technology GPA: 9.6/10.0	Apr 2020
President of Data Science Club, NEU Led 1500+ community events, webinars, managed \$15K annual budget	2023 — 2024
Head of Cultural Affairs, IIITK Organized 20+ events with 3000+ student participation	2018 — 2020

ACTIVITIES

Speaker, NVIDIA GTC AI Conference Presented on Deep Learning & GPU-accelerated ML	2021
Speaker, ODSC West Conference Talk on Applied Data Science & NLP	2022
Kaggle Master, Global Rank 63 Top 0.001% across ML competitions	2022
Table Tennis (State Level), Rubik's Cubing (30 seconds), Hiking & Mountaineering, Tennis
